Hello Nacho,

He was asking about cancelling Wednesday and Thursday meeting, not today's meeting.

Anyway, could you please Mohamed update the table below?

We will appreciate it.

We will also need an update about the Trigo sorting, because maybe a previous delivery to the 5th one is needed.

Deliveries with plastic base:

Delivery	Qty	Shipment Avocarbon	Arrival to Zollner	Packaging	Freight
1 st	200	15/04/2026	17/04/2026	Old	Air
2 nd	480	23/04/2026	04/05/2026	Old with protection	Air

Hi Mohamed,

Let's talk next Thursday, then. Please, we need an update regarding the sorting activities, corrective actions to avoid future quality issues, packaging status.

Planification of next shipments is highly necessary after collecting your inputs.

Thanks,

External email – use with caution!

Hello Ignacio,

Please postpone this meeting to next Friday 29/05/2026, we have holidays 27-28 / 05/2026

Please note that 3CB **CMC5#** + 1CB **Rod chokes** were delivered last week, will be received at your plant by 28/05/2026

Please note that last shipment was produced with PERMABOND® ES566 glue, as well as for next deliveries.

For packaging I already give answer after review with trays supplier, new trays will be available starting from 01/06/2026 – we made some modifications on old trays for last week delivery – attached some photos of last delivery.

I remain available if we could made meeting today.

Best regards
Mohamed Naili

Où : Reunión de Microsoft Teams

Dear Mohamed, Sadok and Amine,

I advance the meeting to tomorrow.

Now, we are covered between 3 or 4 weeks. It means that we need new ship-out in 2 weeks if I consider normal shipment by sea (it is one week of LT, right?)

Let's plan this tomorrow for both components.

I would like also to get feedback about the quality issue with the glue. I need to understand if the next deliveries will come with PERMABOND® ES566 glue to solve a quality issue.

Thanks,

Dear Mohamed,

I would like to review the status of shipment regarding CMC5turns and RodCoil.
Additionally, you must confirm the new packaging for RodCoil is already implemented.

Feel free to propose a new slot as per your convenience.

Thanks,
Ignacio Moreno
